

## Sheffield Olympic Legacy Park

Delivering a tangible legacy from the London 2012 Olympic and Paralympic Games.

The legacy themes;

- Increased **Sport** participation
- Creating opportunities for the local **Community**
- Improving the **Environment**
- Enhanced **Economic** Regeneration

The work streams;

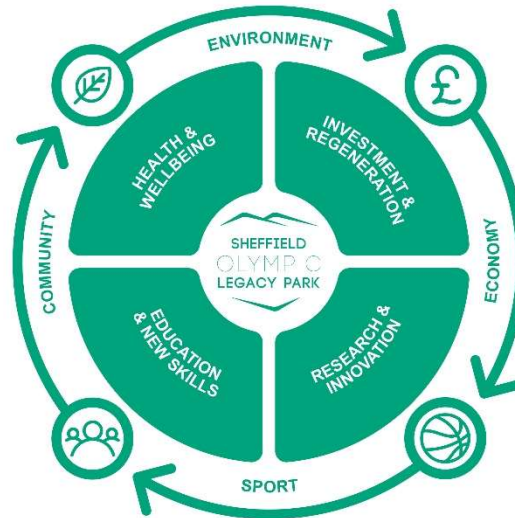

- Real Estate
- Community
- Research & Innovation eco system
- Investor Relations

**Vision** - To be a world leading location for innovation in sport, health and wellbeing.

**Mission** - To transform human understanding of sport, health and wellbeing.

Supporting statements;

- **Global** - Renowned around the world for shaping understanding of the impact of physical activity.
- **National** - The destination of choice for those developing products and services that will transform health and wellbeing.
- **Regional** - A living laboratory that will act as a catalyst for regeneration and high-value private sector growth in Sheffield City Region at the heart of a successful Innovation District.
- **Local** - Home to community and corporate facilities used by elite athletes through to local young people to redefine physical activity and healthy lifestyles.

## Legacy Park Ltd Objectives

- a) provision of facilities and services for the benefit of the community for recreational, sporting or other leisure time occupation;
- b) promote and preserve good physical and mental health;
- c) advancement of education;
- d) advancement of sport participation;
- e) promote entrepreneurialism and the establishment of new businesses;
- f) promote the creation of new jobs;
- g) promote collaborative working between businesses, voluntary and community groups, educational bodies, charities, and public sector entities

**Delivering LPL Members' Benefits and Outputs**

**Sheffield City Council**

- Contributing to the public health of the local community
- Facilitating the coordinated regeneration of Attercliffe and delivery of key projects identified in the Attercliffe Action Plan
- Facilitating returns to mitigate and eliminate the investment made by SCC in the demolition of Don Valley Stadium and subsequent remediation works

**Sheffield Children's NHS Foundation Trust**

- Promoting a healthy lifestyle and physical activity in line with the Trust's aims around child health and rehabilitation
- Delivery of CCHT on a basis that is attractive to SCH

**Sheffield Teaching Hospitals NHS Foundation Trust**

- Promoting a healthy lifestyle and physical activity
- Contributing to the public health of the community within the Darnall Ward
- Familiarising Sheffield Teaching Hospitals research and clinical academic colleagues with Sheffield Olympic Legacy Park to identify and realise research opportunities with partners and create critical mass of research activity

**Sheffield City Trust**

- Improving offer and attraction to new NGB's
- Improving commercial income opportunities for existing facilities (EISS, iceSheffield and FlyDSA Arena)
- Improving health and wellbeing of public and utilise Sheffield Olympic Legacy Park as a focus for that work

**Sheffield Hallam University**

- Championing Active Travel principles in the development of the real estate
- Providing an eco-system for innovations to remain at Sheffield Olympic Legacy Park
- Contributing to Sheffield becoming the most physically active city in the UK as part of the Olympic legacy

**South Yorkshire and Bassetlaw Integrated Care System**

- Promoting a healthy lifestyle and physical activity
- Expanding the NCSEM in Darnall
- Delivering an environment that promotes new skills at all levels within the NHS from technicians to consultants

**Yorkshire and Humber Academic Health Science Network**

- Creating an environment that promotes innovation, SMEs, high value jobs and regional inward investment

**Darnall Well Being**

- Providing input for the Darnall community in investments and activities to ensure they are relevant
- Commitment to reduction of health inequalities
- Consultation with the local community as part of the regeneration of Attercliffe

## Strategic Plan

### Building a Research and Development Eco System

#### Advanced Wellbeing Research Centre

- Ten strategic research partnerships
- Wellbeing Accelerator; 24 health and wellbeing start-up companies per year
- Provide supply chain of space to retain research partners at the Park, including developing an attractive and forward-thinking business support package
- Retain the IP

#### National Centre for Child Health Technology

- Operational from 2023
- Five strategic research partners
- Leverage £50m funding from private sector research partners and generate £30m of research funding in five years

### Improving Local Community Opportunities

#### Darnall Well Being

- Reduce health inequalities (measured by SCC PHE audit)
- Research partnership with AWRC
- Community engagement relationship with DWB for the regeneration of Attercliffe

#### Education and Skills

- Provide a strong basis of education at Oasis Academy
- UTC curriculum delivers new skills for the future in the computing, life and sports sciences sectors
- Provide opportunities for reskilling and upskilling
- Ensure knowledge is shared and retained

#### Sheffield – Outdoor City

- Create public spaces that have a use
- Strengthen links with Canals and Rivers Trust
- Deliver sport and Exercise that is accessible to all
- Respect-Appreciate-Enjoy

### Real Estate

#### Scarborough Group

- Collaborative public/private sector partnership
- Outline planning application for masterplan from Worksop Road to Broughton Lane
- Detailed designs for Attercliffe Common plot
- Acquisition of adjacent and relevant land and property holdings

#### Advanced Manufacturing Innovation District

- Sheffield Olympic Legacy Park is one of three innovation clusters of AMID
- Participation in strategic leadership group and appropriate working groups
- Supporting infrastructure intervention projects

### Investor Relations

#### Sheffield City Region

- Deliver relative outputs included in SEP
- Support density to harness the benefits of clustering.
- Coordinate and strengthen the innovation cluster
- Offer a comprehensive business support package

### Transformational Growth

- The concentration of innovation activities is starting to intensify;
  - Advanced Wellbeing Research Centre
  - National Centre for Sport & Exercise Medicine
  - Wellbeing Accelerator
  - Being Well Group
  - National Centre of Excellence for Food Technology
- This will be strengthened with the introduction of;
  - National Centre for Child Health Technology
  - A Medical Diagnostic Imaging Centre
  - AWRC 2
  - Incubator Centre
- Build innovation capacity and wealth creation
- Facilitate demand by ensuring the appropriate assets, environment and support are in place to deliver ambitious and transformational change post Covid.
- Coordinate with public and private sector partners to evolve a Life Sciences cluster of assets, innovation capacity and capabilities.
- Present a joined up approach to government and potential inward investment opportunities
- Embed healthy living in all levels of education available on the Park
- Build and promote centres of excellence in sport to attract new Governing Bodies to relocate to EIS Sheffield and Sheffield Olympic Legacy Park
- Promote research capability and knowledge on an international environment
- Develop proactive strategies to attract key organisations to relocate
